About E2 Solutions

E2 Solutions Inc. is a growing software and services company in the supply chain industry. We provide a fun, casual, and flexible work environment where you get to work with smart and driven people on cutting-edge solutions. We implement a broad range of proven supply chain solutions to fit our customers' size, business strategy and appetite for growth. Our customers conquer the complexity of the supply chain thanks to our portfolio that includes software, automation, vision solutions, robotics and material handling – plus the systems integration expertise to tie it all together. E2 helps to manage the supply chain as a competitive advantage.

Summary

We have full-time positions available for Solution Consultants in our Edina office. (Remote work may be an option once fully trained and able to show the ability to work effectively and independently). As a part of our implementation team, you will be designing, configuring, testing, and implementing warehouse management system (WMS) and cutting-edge Vision solutions. You will be working daily to solve problems and create personalized solutions for our customers.

Duties and responsibilities include but are not limited to the following:

- Assist in the translating of business requirements into technical design documents using Microsoft Visio, Word, MS Project, and Excel
- Configure, develop, debug, and trouble shoot solutions per design documents
- Assist in training of customer management team and end-users
- Other duties as assigned

Successful Traits

- Ability to work in a fast-paced environment
- Excellent time-management skill
- Self-motivated
- Attention to detail and accuracy
- Able to work in a respectful manor with all levels of employees
- Work effectively both in the office or remote
- Excellent communicator, both verbal and written

Qualifications

- Intermediate configuration or programming experience in (Java, Python, C#) and databases (SQL / Oracle) queries and stored procedures
- Excellent listening, oral, and written communication skills with strong interpersonal skills
- Ability to prioritize tasks and self-manage
- Strong consulting, analytical and problem-solving skills
- Supply chain and distribution industry knowledge and experience
